## I've always had a big but.

I'm not talking about my back-side...rather that internal saboteur who shouts out all kinds of reasons that I shouldn't do something or that things would not work out for me. My butts were huge!!!! But then I figured out one amazing thing...I could CHOOSE what I thought and how I felt. And you know what? My butts began to shrink. It was the best "diet" I had ever been on. Let me come and help you and your staff, membership or group learn how to get off their big Buts and make wildly important and amazing things happen.
